

Wayne Township Public Engagement Kick-off

October 4th, 2023 – Public Meeting #1

The first public meeting was conducted in coordination with the planning consultant – McBride Dale Clarion. Staff provided an introduction, plan update process, and explained the differences between the growth management plan and the zoning code. They then facilitated a discussion about the 2018 Growth Management Plan goals and existing land use map. Approximately 30 people were in attendance including the Zoning Commission, Trustees, and residents.

A second survey is available for the public to complete by **October 31st**.

May 2023

The Growth Management Plan Public Kick-off began with an online survey to collect input from residents. We asked what qualities make Wayne Township unique and special, what the biggest assets are, and what areas should be preserved and protected. We also asked what the Township should prioritize for the future and what challenges the community is facing. **47 responses** were collected through the online and written versions of the survey.
